authentic design

How can you make your business stand out from your competitors?

Be you! You are your businesses USP, so don't hide away behind a vanilla brand.

Be loud + proud, weird + quirky, feminine + fresh, but don't try and fit in.

Your differences are what helps you attract your raving fans, the die hard tribe that loves what you do, because they get you, but you have to be brave enough to show off the true you in the first place.

But you know what...it can be hard designing for yourself.

This is where I can help.

a magical mix of your
true purpose, quirks +
personality

I'm Lucie!

I'm a graphic + web designer who thrives on helping female, creative entrepreneurs with the design side of their businesses.

I believe that we need to be in love with our businesses visual identity, so we have the confidence and excitement to show them off.

I'm a tea drinking, mumma with a penchant for weird art and black eyeliner.

I'm nurturer at heart who has been lucky enough to stumble on my purpose in life, so I'm grasping it with both hands and seeing where it takes me.

FAQ

Why does design cost so much? Well thoughtout design is an investment in your business. You need to be able to attract your raving fans + perfect customers. It's not just about picking a nice font + your fave colours, there is alot of thought + structure that goes into the process.

What I'm after isn't on your pricelist? No worries, get in touch, I love taking on new + exciting opportunities, drop me a message at lucie@inkspikestudio.com + I will get back to you with a quote.

Are there payment plans? Yes! For all design work over £350 there is a payment plan available. 30% is due when booking in your project, then a further 2 payments of 35% are due throughout the project timeline. If you would like to discuss a different payment structure I'm happy to offer a schedule that fits your budget.

What is the design process? After an initial consult + your contract has been signed, I will send over a design questionnaire, this helps me to delve into your business a little deeper, so I can inderstand who your target market is. You will be asked to collect images for an inspiration board so we can be on the same page regarding the look + feel you're after. After some industry research I will get my sketchbook out + get some ideas down, I will present 3-5 different design concepts for your brand logo, + then work from your feedback, tweaking + refining until you have the perfect design for your business. 3 revisions are included in the price, any further revisions will be at the hourly rate.

How long does the design process take? This varies greatly + depends on how timeily you as the client respond with feedback. It also depends on the type of project, if you have a deadline to meet please let me know before the project starts to make sure I'm able to fulfil it in time.

Can I schedule a call before I commit? Of course! Having a chat over the phone or through zoom is always available both before + throughout a project, please bear in mind, that my time is extremely important to me, so please only schedule a call if you genuinely want to work with me.

OK, I'm ready, what do I do next? Awesome!!! I can't wait to get to know you + your biz!
